

GeeTee Abrasives

**Specialised Cut-off Wheels
for Metallurgical Lab cutting Application**

GEETEE Abrasives renowned cut-off wheels & Grinding Wheel ISO 9000 – 2015 Certified Manufacturer set the standard in the industry. We are 45 years old company with full fledged Manufacturing Facility in Thirumudivakkam SIDCO Industrial Estate Chennai. We mainly supply to OEM and direct customer.

We have good satisfied customer list, because we are engineered for fast, free and cool cutting. metallurgical cut-off wheel to make burr-free cuts on a variety of metals, including steel, cast, bronze, and copper. The aluminum oxide abrasive is specifically designed to make smooth cuts for easier metal analysis, while the non-reinforced metallurgical cut-off wheel is suitable for wet use, which prevents heat discoloration or burn damage on your materials, providing cleaner cuts and purer samples. For long-lasting use, this metallurgical cut-off wheel features a high-quality resin bonding system to prevent wear and tear.

Wheel Specification :

Diameter	Thickness	Bore & Grade
250 mm	1.5 mm	Diameter 31.75 mm Grade will be supplied according cutting specimen material & Geometry
300 mm	1.5 mm	
300 mm	2 mm	
350 mm	2.5 mm	
400 mm	3.2 mm	
500 mm	3.2 mm	

Features :

Non-reinforced wheel designed specifically for burr-free cutting of 300 and 400 series stainless, carbon steels, tool steels, titanium, super alloys, aluminum, brass, bronze, copper, and cast, ductile and hard iron for microscopic metal analysis

- High stability Provides straight Cut.
- Burn & Burr Free Cutting.
- Good Performance and Wheel Wear Ratio
- Fast & Free Cutting.
- Long Wheel Life.
- Thin & Accurate Cutting.
- No Loading or Glazing of the Wheel.
- Comfortable & Easy to Use.

Infrastructure : We Manufacture cutting & Grinding wheel by company tradition of providing the best possible quality product using latest technology & machinery with highly experienced technical Experts.

Quality : Only Premium range of grains & Grids are sourced from reliable suppliers are used in manufacturing of the wheels. The state of art of Manufacturing is the key of manufacturing high quality & consistent product.

Manufactured By :

GEETEE ABRASIVES

Plot No.267, 7th Main Road, SIDCO Industrial Estate,
Thirumudivakkam, Chennai - 600044, Tamil Nadu, India.
